CoreTrex SP2

A Nearly Virtual Terminal.

The CoreTrex SP2 is a highly secure IP hardware solution for POS transactions. The SP2 can be installed at any individual Internet connection or on a LAN to provide real-time IP processing. Up to 15 simultaneous users can access the SP2 using their existing Microsoft Explorer web browser. The SP2 sells and deploys the same as an IP terminal. The SP2 is easy to install and support because there is no other software required to access its application. With its 64 MB of Flash memory, the CoreTrex SP2 has ample room for a host of applications. Also, with three serial ports onboard, peripheral devices (MSR, PINpad) can be utilized.

Specifications:

LAN Ports	10/100 Mbps Ethernet port (RJ45)
Internet Port	10/100 Mbps Ethernet port (RJ45)
CPU	ARM9 Series
Flash	64 MB
DRAM	16 MB (OPTION 32MB)
Modem Port	To External Modem RS232C for PPP or Console (DB-9 Male)
Protocol	TCP, UDP, HTTP, DHCP, PPPoE, SNMP
Configuration Method	WEB, Telnet, NMS
RS232/1	To MSR RS232 & POWER- 9V, 200Ma (RJ45)
RS232/2	To PINPad RS232 & POWER- 9V, 200Ma (RJ45)
Power	DC Adapter (DC 9V, 2A)
Size (L x W x H)	15.5cm x 18.5cm x 3.5cm
Weight	361g
